Re Estimate and plan for the construction of the Municipal Offices at Nanjangud

With reference to your No 131 dated 2-7-1948 forwarding for my remarks a file of records relating to the above subject received from the President Town Municipal Council Nanjangud I have the honour to state that on examining the plan and estimate enclosed in the file prepared by the Assistant Engineer Nanjangud Sub Division Nanjangud the following defects are observed and they may be rectified and forwarded to this office for further scrutiny

(1) Windows of the Council Hall should be provided directly below the circular ventilators of the proposed Town Hall which is for the future construction

(2) Door of the Council Hall is provided just opposite to the pillar of verandah The same should locate in a convenient position to avoid the pillar in front

(3) Door of the passage should at least be 6 feet wide and a collapsable shutter may be provided for the front opening of the passage

(4) There is no necessity to provide two doors in the passage Door in the rear wall of the passage may be omitted and mere opening of 6 feet width may be provided

(5) Council Hall is proposed to be of $37\frac{1}{4}$' x 12' clear The proportion of the width and length is not suitable Width of the Council Hall may therefore be increased at least to 18 feet

(6) For a Council Hall, at least 4 big windows to afford adequate ventilation may be provided

(7) Platform or dias may be provided in the Council Hall

(8) Wall between verandah and the proposed Town Hall, thickness of which is proposed at $2\frac{1}{2}$ feet need not be raised above the level of the parapet wall over the roof of the proposed Municipal Office

(9) Type "A" door need not be provided in the wall under item No 8 Mere openings may be provided and the gaps may temporarily be closed for the present These doors may be fixed when the construction of the Town Hall is taken up

P T O

(10) The front elevation does not tally with the section

The file received with your number under reference is herewith enclosed for needful
